Professional Summary

Entry-level Data Analyst with internship experience using Python, SQL, Power BI, and Excel to clean, analyze, and visualize business data. Experienced in developing dashboards and SQL-driven analyses across e-commerce and HR datasets, analyzing 20K+ transactions and 5,000+ customers to uncover revenue, customer behavior, and attrition drivers. Skilled in data preparation, EDA, KPI reporting, DAX, Power Query, and data validation. Seeking an entry-level Data Analyst or MIS Executive role.

Technical Skills

- **SQL:** MySQL, Joins, Subqueries, CTEs, Window Functions, Aggregate Functions, GROUP BY, HAVING, CASE Statements, NULL Handling
- **Power BI:** DAX, Power Query, Data Modeling, Relationships, Measures, KPI Reporting, Interactive Dashboard Development, Data Visualization
- **Python:** Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis (EDA), File Handling
- **Microsoft Excel:** Pivot Tables, Power Query, Power Pivot, VLOOKUP, HLOOKUP, INDEX-MATCH, Charts, Conditional Formatting, Data Validation, Basic Macros
- **Data Analytics:** Data Cleaning, Data Transformation, ETL, EDA, Statistics, Trend Analysis, KPI Analysis, Business Reporting
- **Tools:** Jupyter Notebook, Git, GitHub, MS PowerPoint, Google Sheets

Experience

Data Analytics Intern

05 Apr 2026 – 15 May 2026

Oasis Infobyte (Part-time, Remote)

- Prepared and validated business datasets using Python, SQL, and Excel, handling missing values, standardizing formats, and removing duplicates to improve data quality for analysis.
- Developed interactive Power BI dashboards using DAX measures and Power Query transformations to track KPIs, identify trends, and support stakeholder reporting.

Data Analytics Intern

14 Apr 2026 – 14 May 2026

Codec Technologies (Part-time, Remote)

- Wrote SQL queries using joins, aggregations, filtering, and conditional logic to analyze relational datasets and answer business questions.
- Created analytical reports and interactive Power BI dashboards to monitor KPIs and translate data findings into actionable business insights.

Projects

Customer Shopping Behavior Analysis | Python, SQL, MySQL, Power BI [\[GitHub\]](#)

- Engineered features across 3,900 transactions, imputing 37 missing ratings and creating age-group and purchase-frequency fields for behavior analysis.
- Queried MySQL with 10 SQL analyses, finding 2.1× higher revenue from male customers and 73% of revenue from non-subscribers.
- Designed a Power BI customer segmentation dashboard grouping customers into Loyal (3,116), Returning (701), and New (83) tiers for targeted retention and marketing.

HR Analytics – Employee Attrition Analysis | Power BI, DAX, Power Query, Excel [\[GitHub\]](#)

- Transformed a 1,470-employee, 35+ attribute HR dataset in Power Query, removing duplicates, standardizing fields, and building calculated columns for attrition analysis.
- Developed an interactive Power BI dashboard using DAX, KPI cards, and slicers, revealing 16% attrition, highest among employees aged 26–35 and with under 2 years of tenure.
- Surfaced salary-band, education-field, and job-satisfaction patterns across 1,470 employees to inform workforce retention.

E-Commerce Customer Behavior & Sales Analytics | Python, SQL, MySQL, Power BI, Power Query [\[GitHub\]](#)

- Analyzed 17,049 transactions from 5,000 customers using Python, Pandas, and SQL for data preparation, EDA, and customer behavior analysis.
- Applied advanced SQL functions — CTEs, CASE, RANK, DENSE_RANK, window functions — to identify sales, customer, product, and trend patterns.
- Implemented a DAX-driven Power BI dashboard with RFM segmentation, highlighting 21.78M in sales, 88.2% returning-customer transactions, 922 Champions, and 1,346 Loyal Customers.

Education

Bachelor of Technology – Electronics and Telecommunication Engineering

2023 – 2026

Sanjay Bhokare Group of Institutes, Miraj, Maharashtra

CGPA: 7.0/10

Diploma – Computer Science

2020 – 2023

Sharad Institute of Technology Polytechnic, Ichalkaranji, Maharashtra

71.66%

Certifications

- Data Analytics Job Simulations: Deloitte & Tata Group – Forage (2025) — Data Analysis, EDA, Data Visualization, GenAI
- Data Analytics Course – Tutedude (2025) — Python, SQL, Excel, Power BI, Data Cleaning, Visualization
- Advanced Prompt Engineering with ChatGPT – upGrad (2026) — Generative AI, Prompt Engineering, LLMs
- SkillCourse – Power BI, Python & Microsoft Excel with AI Masterclass (2026) — Power BI, DAX, Python, Excel, Data Analysis
